

ANCIENT TORTURE**How it has Been Revived in Modern Times.**

An ancient method of poisoning criminals was to force them to swallow large quantities of bull's blood. Bull's blood is really no poison at all. Yet the prisoner usually died in agony. This was caused by the coagulation or hardening of the bull's blood in the stomach. The pressure of this solid mass on the heart, lungs and other vital organs almost always resulted fatally. That's just like indigestion. If your food doesn't digest it remains in a hard lump in the stomach. Gases are formed, which crowd and sometimes actually displace other organs. Many cases of supposed heart disease are due to indigestion. The pressure upon the lungs interferes with breathing. A disordered stomach affects the whole body. By the use of such a preparation as Kodol Dyspepsia Cure all this trouble is removed. Before food can be assimilated into the system it must be reduced to proper condition by the digestive fluids. If any of these fluids are lacking, perfect digestion is impossible. Kodol Dyspepsia Cure supplies the missing fluids. Stomach troubles can't be cured by dieting. The system demands both a sufficiency and a variety of food. You can't get well or stay well without it. Kodol Dyspepsia Cure enables the stomach to take care of any kind of good food. It renders dieting unnecessary. It digests what you eat. In this way it rests the stomach. This rest soon restores the stomach to perfect health. Kodol Dyspepsia Cure helps the children too. Weak and sickly little ones thrive on it. It never fails.

"During the last few years my stomach was in such condition that I couldn't retain the food I ate," writes Henry Williams of Booneville, Mo. "Two months ago I commenced taking Kodol Dyspepsia Cure. A few bottles have cured me entirely. I can now eat and enjoy anything I want."

PEACE IS IN SIGHT**Situation in South Africa One of Most Hopeful Augury.****OFFICIALS RESERVED****Londoners Believe Peace Is Now Assured But Can Get No Confirmation of It.****Extreme Precautions Taken to Prevent Premature Reports From Getting Out.**

London, May 24.—There is every reason to believe that peace in South Africa is practically secured. How soon it will be announced depends, apparently, more upon the convenience of the Boer leaders than upon the inclination of the British government. The private official advices received in London from South Africa all point to the same conclusion. The delay is technical, and to end the long war seems to be the desire of both British and Boer leaders. The latter, however, are unable to convince all their followers of the wisdom of acquiescing to the terms of peace.

There is widespread belief in the best informed quarters that the end of the war has come. In fact those persons who are best acquainted with the actual details of the present negotiations only qualify this optimistic expression of opinion by guarded reservations concerning the extent of the personal control of the Boer leaders over their commands. Were the Boers a thoroughly disciplined force, dependent upon the action of their general officers, peace would probably be proclaimed at once; but both De Wet and other generals seem themselves unable to positively guarantee the degree to which their example will be followed.

The delegates at Vereeniging, according to information in possession of the war office, are fairly evenly divided. Consequently extreme precautions are exercised both in London and at Pretoria to prevent any premature action or report which might adversely influence the burghers. The British public is still quite ignorant of the course of events in South Africa, and there are no demonstrations on the London streets, although on all sides the question asked is, "Is it peace?" On the other hand the stock exchange yesterday was a seething mass of brokers who eagerly bought South African shares, while long after the closing of the exchange nearly a thousand brokers crowded Throgmorton street and did a frantic curb business on the strength of the peace outlook.

Verified At Berlin.

Berlin, May 24.—The foreign office here has been advised from Pretoria that peace in South Africa is practically concluded. The articles of surrender are ready to be signed, with the exception that the approval of the British cabinet of the wording of the secondary provisions is awaited. The suspension of hostilities may be announced at any hour.

AN OLD STORY**But None the Less Important Is It For A That.**

Hamburg, May 24.—A special dispatch to the Hamburg-Boerschen from Guatemala says that the town of Quezaltenango has been wholly destroyed by an earthquake which lasted three-quarters of a minute. Business is entirely suspended in Guatemala, and a great part of the coffee crop there has been destroyed.

Washington, May 24.—The earthquake reported in Hamburg dispatch, resulting in the destruction of the city of Quezaltenango, Guatemala, was identified here as that which really occurred on the 18th of April and which has been described to some extent in the American newspapers. Information received here at the Guatemalan legation shows that the city was wholly destroyed and that San Marcos and several other towns were partially destroyed. The Guatemalan authorities decided to reconstruct the city of Quezaltenango on a plain some distance from the site of the original place. Reports regarding the destruction of life are incomplete, but they indicate that at least several thousand persons were killed and that the property loss approximated \$50,000,000 in the April earthquakes.

His Title Undisturbed.

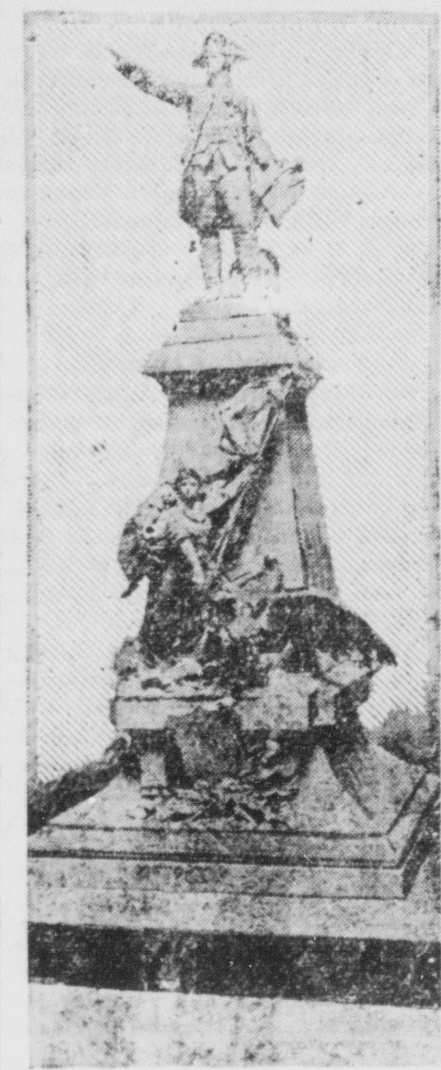

Denver, May 24.—William H. Rothwell, better known to the sporting world as "Young Corbett," last night gained the decision over Kid Broad of Cleveland, O., in the 10th round at the end of a fast and furious fight. The fight is the third time this pair have met. The contest was for the featherweight championship of the world.

Application Rejected.

Columbus, O., May 24.—The state board of pardons unanimously rejected the applications for pardon filed by Mrs. Frances L. Taylor and her daughter, Miss Frances L. Taylor Jr., sentenced for one year's imprisonment each for complicity in the kidnapping of little Margaret Taylor, the grand child of Mrs. Taylor.

A PRETTY GIFT**France Presents Statue of Rochambeau to America.**

Washington, May 24.—In the presence of the president and his cabinet, distinguished officers of the army and navy and members of congress, the beautiful statue of General Rochambeau, the French officer whose services

**THE ROCHAMBEAU STATUE.**

were of such value to General Washington in the campaign about Yorktown, presented by the French government to the United States, was today unveiled amid imposing ceremonies. The distinguished party of Frenchmen including the Count de Rochambeau, General Brugere and Admiral Fourrier, sent as commissioners of the French government to present the monument to the American people, attracted much attention during the unveiling services attending the unveiling of the imposing memorial.

AN EXECUTIVE ORDER**A Bit of Provisional Authority Curtailed in Miles' Case.**

Washington, May 24.—The president has revoked the old executive order of Aug. 29, 1901, by which the lieutenant general commanding the army (General Miles) and the adjutant general (General Corbin) in turn are to assume the duties of secretary of war in the absence of the secretary and the assistant secretary.

The president's order of revocation leaves the department without a head in the event of the absence of the secretary and assistant secretary, unless such head is specially designated on each occasion. Both the secretary and assistant secretary were absent yesterday, but Secretary Root before he left issued a special order designating his chief clerk, John C. Schofield, to "sign requisitions upon the treasury and other papers requiring my signature, during my temporary absence from Washington on the 23rd of May, 1902, and until my return or until the return of the assistant secretary of war." It is presumed that similar special orders will be made designating Mr. Schofield to perform these duties whenever the secretary and assistant secretary are absent in the future.

A Conservative Opinion.

Washington, May 24.—Senator Hanna says he does not believe the organizations of the United Mine Workers in the bituminous districts of western Pennsylvania, Ohio, Maryland and Illinois will strike, because they are working under contracts which give them what is to a large extent demanded by the anthracite miners and which the anthracite operators will not agree to. Furthermore, the coal produced by these mines, he says, can supply the place of the anthracite coal only to a limited extent. In the states named a scale is agreed on every year. Eight hours is a day's work. This year, in April, an agreement was made, and Senator Hanna does not believe that a strike will be ordered simply to create a scarcity in places other than those supplied by the anthracite mines.

SECOND IN A WEEK**Another Mine Explosion Causes Death of More Than a Hundred.****A CARELESS ITALIAN****An Open Lamp In the Hands of An Ignorant Miner Creates a Scene of Horror.****Crow's Nest Coal Company's Mine at Fernie, British Columbia, Blown Up.**

Vancouver, B. C., May 24.—One of the most terrible mine disasters in the history of the frequent attacks in British Columbia has occurred in the Crow's Nest Coal company's mines at Fernie, B. C. Over 100 men are either dead or imprisoned in the mine and little hope is entertained of rescuing any who may yet be alive. Fernie is 200 miles up country and the limited telegraph facilities have not enabled complete details of the disaster to be sent out.

A special from Fernie says: The management has a list of 133 men who are known to have been in the mine, and there are probably others. Of these only 24 are known to be safe. It is feared that few, if any, of the remaining 109 are now alive. What caused the explosion has not yet been definitely ascertained. Many of the miners were ignorant foreigners and one of the mine shafts was always more or less gaseous. It is reported in Fernie that the explosion resulted from the use by a careless Italian of an open or naked lamp. Another theory is that a miner struck a match, exploding the gas, which was almost always present in No. 2 shaft. The true cause of the disaster will probably not be positively ascertained, for it is doubtful if any man who knows will ever reach the outer air alive or be able to tell the tale. The explosion took place in No. 2 shaft of the mine, being repeated in a few seconds in No. 3, with which it was connected. The presence of coal damp makes the work of rescue very dangerous, and is seriously hindering the efforts of the workers.

These are the outlines of a most heart-rending calamity, the only disaster which has occurred in British Columbia exceeding it in magnitude being the death of 157 men in Wellington mine, 18 years ago. The scene in the neighborhood of the mouth of the tunnel is distressing in the extreme, and all the more so as it is utterly impossible to hold out any hope to the women, whose cries are for entombed husbands and fathers and brothers. In No. 2 tunnel, in which the first explosion occurred, from 100 to 120 men and boys are usually employed, and in No. 3 tunnel to which the explosion extended, about 80 men generally work. In both mines there are many foreigners, and the difficulty of disciplining these men and impressing upon them the danger of the use of unprotected lights has always been very great.

Kentucky Is Uneasy.

Louisville, May 24.—It is said that that Kentucky state board of health will on Wednesday next declare a quarantine against the state of Indiana on account of smallpox unless the governor of Indiana in meantime takes action that will satisfy the Kentucky board that such a radical step is not necessary.

TRADE REVIEW**Much Is Made of Good Showing in Crop Reports.**

New York, May 24.—Bradstreet's weekly review of trade today says: With almost uniformly good wheat, corn, oats and cotton crop reports, improved retail demand caused by warmer weather, a full volume of re-order business for this season of the year, good collections and heavy railroad earnings, the only cloud on the situation would seem to be the continued unrest of labor and the idleness of large numbers of industrial workers as a result thereof.

Telegrams to Bradstreet's point to the greatly increased area devoted to corn and oats receiving adequate moisture at a time when greatly needed. It will probably be found that all of the 5,000,000 acres of winter killed wheat and that lost to spring wheat by heavy rains in North Dakota will be turned into coarser grains, higher prices for which have been induced by short yields and straightened supplies last year. The winter wheat crop in the Southwest is practically made.

More Storm Damage.

Cincinnati, May 24.—Heavy rains caused a sudden freshet yesterday in the Licking river, which empties into the Ohio, between Covington and Newport, Ky. The great volume of water poured into the Ohio river with great force, tearing loose barges and all kinds of water craft, along with shanty-boats. Tugs were sent after the floating property, but several barges of coal were sunk. There are fears that some of the occupants of houseboats carried away have been drowned.

CONGRESSIONAL**What Is Going On Beneath the Capital Dome.**

Washington, May 24.—A temperate and carefully prepared speech was delivered in the senate yesterday on the Philippine bill by Mr. Dubois of Idaho. He confined himself almost entirely to a discussion of the commercial and industrial aspects of the Philippine question, his purpose being to show that it would be a disadvantage to the people of this country to retain the islands. Whatever of profit there might be in them, he said, would accrue to a few capitalists who by their development of the resources of the archipelago through cheap labor, would come into competition with the agriculturists and manufacturers of the United States in the markets of the world. This government's activity in the Philippines also would serve to arouse China from her lethargy, and, once aroused, the dragon would devour the trade of the world.

An earnest and forcible reply to Mr. Dubois was made by Mr. Beveridge of Indiana, who contended that the development of China's resources would be of advantage in trade and commerce to the United States, as the industrial development of other nations had been.

Necley's Luck.

Havana, May 24.—The bill before the house granting pardon to all Americans for acts committed during the American intervention was amended yesterday to grant these prisoners a general amnesty instead of pardon. In this form the bill passed without opposition. A similar bill has been introduced in the senate, where final action on the matter will be taken Monday. The amnesty bill is inspired by the friendly sentiments of the Cubans toward Estes G. Rathbone. If this bill passes it will set at liberty Rathbone and all other Americans under sentence or awaiting trial.

A NEW FAD**Indianapolis Girls Like to Show Their Pretty Arms.**

Indianapolis, May 24.—The Indianapolis girls are taking up with a fad that originated about the summer resorts last year. Most any afternoon these days one will pass hundreds of handsomely dressed girls in the downtown streets with arms bared to their elbows. This fad was noticeable last year, but not to such a marked degree as this. Girls with "finely chiseled" arms find the fad an opportunity for displaying their charms. Even the girl with a "skinny arm" can't resist the temptation to follow in the line of her more fortunate sisters, so the fad has become general. The badge of perfection is reached when the hands and arms are brown as the proverbial berry. Some girls try to explain the fad by saying it is hygienic—a pretense that has been hard-worked by the sex, but whether or not it is hygienic, it has caught on in great shape and it promises to develop more followers as the summer advances.

It was hinted by prominent Republican politicians here today that Jas. F. Stutesman of Peru expected to land the Republican nomination for congress in the Eleventh district. A few leaders in the district it is said were appraised of a plan by which Stutesman was to be sprung suddenly on the convention in event of a dead-lock. His name was presented once after several hundred ballots had been taken and he received about 10 votes. He rather indignantly and abruptly withdrew, giving the impression that there was no prearrangement so far as he was concerned. But Stutesman has always aspired to represent his district in congress, and many believe there was more truth than fiction in the report that he rather expected the convention would afford him an opportunity.

It is a trifle early to talk of Christmas toys, but this week half a dozen salesmen with at least a hundred trunks between them have been in Indianapolis selling "things" that will be offered to Christmas shoppers. Two traveling men who were in Indianapolis last night said the merchants are buying more heavily than they have in recent years. Thousands of dollars worth of Christmas goods will be shipped into Indiana within the next few months and stored away for the holidays. The toy men are showing new novelties that are expected to delight the hearts of the little folks. One of the latest is a toy automobile which one traveling man says will take the place of that great winner with the children—the toy engine and train.

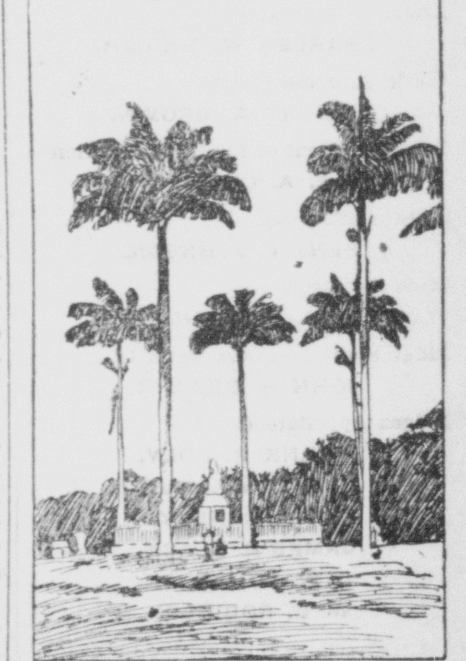

"Jack" Nolan of Evansville, first district committeeman, while in Indianapolis this week, was authority for the statement that the Democrats of Vanderburg county might declare in their platform that they were the "white man's" party. A few years ago they had a plank like that in their platform, and Nolan says they won by a large majority. The colored vote is rapidly increasing in the river counties that compose the district, and but for that feature the Democrats probably would never have any difficulty in carrying it. So Nolan and other party leaders figure that they have nothing to gain by declaring against the negro, while by declaring for a "white man's party" they may line up enough of those who entertain race prejudices to carry the district.

LEAVING MARTINIQUE**Terror Stricken Islanders Striving to Get Away**

Fort De France, Island of Martinique, May 24.—Despite the favorable change in the situation, many families have left Fort De France by the French steamers Versailles and the Ville de Tanger for the island of Trinidad and for Cayenne, French Guiana. This, with the 1,200 persons who have gone

to the island of Guadalupe, and many others who have sought refuge at St. Lucia and other islands, has lessened the population considerably. Besides these, some 2,000 persons have left Fort De France for the southern parts of the island of Martinique, where 3,000 refugees have now assembled. This desertion of Fort De France has resulted in the disorganization of many trades. A number of bakers have been compelled to close their stores owing to the fact that their employees are among those who have fled.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. THOSE Bryanites, Democrats or what-not, who are boasting now that their idol shall not be ignored in the Indiana Democratic platform, will be as silent as the grave when the ignoring plank shall be read.—Journal.

AT LEAST three things are troubling the democratic leaders of the state. They are having trouble to agree on a man to preside over the convention. John W. Kern wants to preside but there is a strong anti-Kern sentiment over the state that promises to assert itself if an attempt is made to deliver the gavel to Kern. Then the varying career of democracy makes the preparation of a platform a very difficult task. To mention or not to mention Bryan in the platform is already an issue between the radicals and conservatives. But the greatest problem that confronts the leaders is the dearth of candidates. As it looks now they will have to resort to the draft to fill their ticket. The convention is set for June 4.

REPORTS OF THE RAIN.

Trains Running Again—What Some Farmers Say.

From every direction come reports that the rain the past two days was the heaviest for a long time. Considerable damage was done in places, but the beneficial results to the farmers are very great. A heavy rain was needed for the time of year and crops were suffering. This will start every thing nicely.

The two railroads that had some washouts west of here are getting their trains through again. The Southern Indiana were able to get their trains over Friday evening, but the B. & O. did not get repairs completed sufficient for trains to pass over until this afternoon.

White Creek was out over the bottoms last evening. The Muscatatuck is on a rampage today, covering the bottoms. The rural mail carrier on Route No. 2, found it impossible to cross at Newry this morning. Mutton creek is also away up. White river came up only about five feet and will not go much higher unless there is considerable more rainfall.

Many farmers were in town today and below are given some of their comments:

August Spreen, west of Seymour.—“No particular damage out my way.”
A. M. Beatty, Hamilton township.—“River will probably not be out of the banks. Corn in low ground will have to be replanted. White river raised about five feet. White creek is over the bottoms.”

R. R. Short, Redding township.—“I think my wheat is damaged some.”
Mr. Zimmerman.—“Rain did more damage than good for us. It washed so much.”

L. Richart, Jennings county line.—“It won't hurt grass, will injure clover some.”

Geo. Baker.—“Six mile creek and Muscatatuck all over the bottoms. Corn damaged considerably. Will have to replant.”

Robert Shepard, southwest of Seymour.—“Rain did not injure us of any consequence.”

Henry Loeblin, Rockford.—“Have not hurt us yet. The river is falling.”
White creek is over the bottoms. The water is hub deep on the road. Broke the levy on the Findley land in Hamilton township. The general report is that the wheat is not injured. Very little is down. Oats that needed rain badly will be benefited greatly. This rain will make wheat crop in this vicinity.

Dr. M. F. Gerrish returned last night from Evansville where he attended the state medical society. Dr. Hill is expected home this evening. An excellent meeting is reported. Dr. Gerrish read a paper on “Surgical Treatment of Appendicitis.” Dr. G. G. Graessle, of this city was down on the program for a paper on “The Diagnosis of Appendicitis,” but was prevented from being present by professional and business duties. The next annual meeting of the society will be held at Richmond.

A BOWER IN THE WOODS.

Incidents in the Life of a Jackson County Pioneer.

TO THE EDITOR.

Four generations of the Bower family, prominent in the affairs of Jackson county almost since the very first opening of this neighborhood to settlement and civilization, were represented in a family reunion at the hospitable home of William H. Bower, near the prosperous little town of Kurtz, Thursday, May 22nd, 1902, the occasion—in which a very few intimate friends were joined—being the anniversary celebration of the birth of Daniel Wilson Bower, the oldest surviving pioneer of Owen township.

Of the immediate family connection there were present to cheer their venerable father, Eli Bower, of Freetown, aged 63, Judge Thomas Jefferson Henley Bower, of Alva, Wood county, Oklahoma, aged 59, Daniel Clinton Bower, of Clear Spring, aged 57, and William H. Bower, of Kurtz, 48 years old. One brother, Joseph, and six sisters are dead and Mrs. D. W. Bower, their mother and also a native of Clark county, died in 1885. These be all large Bowers and statue is theirs by right. Their grandmother was tall and broad, weighing 380 pounds.

Others of this family present were Mrs. Eli Bower, of Freetown; Mrs. Ida May Bower-Hopper, of Turco, Reno county, Kansas, who was born in the jail residence at Brownstown July 7th, 1874, when her father, “Jeff.” Bower, was sheriff of Jackson county, and her daughter Lina Marie Hopper, a very bright little “Sunflower” 5 years old; Miss Martha Bower and Miss Mary Cooper, of the family of “Clint” Bower; Mrs. William H. Bower; John R. and Mrs. Lula Bower and their little daughter Gladys, and Mr. and Mrs. Charles Sprague and their two little children.

Other Bower families were represented by Elbert Marion Wright, of Salem, aged 69, whose mother was Elizabeth Bower and whose father died of cholera in Washington county, in 1833, who is the only living representative of that family; Oliver Clinton Bower and his wife, of Cleveland, O., the youngest of nine children and the only living representative of the Absalom Bower family, and Daniel J. Bower, of Jeffersonville, 72 years old, son of Daniel Bower and the only survivor of a family of ten children, and his daughter, Miss Kittie. These all are of the Bower family which a few years ago numbered 200 voters in Clark county.

Other guests were the venerable Evan Scott, of Freetown, A. J. Broecker, of The Banner, and A. A. Sheppard, of Brownstown, and John Auld Forsythe, of Seymour. A most enjoyable incident of the reunion was an appetizing dinner, prepared and served by the hostess, Mrs. Will H. Bower, with all the cleverness, grace and cordiality of a trained and true Hoosier home keeper. After this repast the family and visitors were grouped and pictured by a clever artist, who came all the way from Orleans to “take” them.

“UNCLE WILSON” BOWER.

Daniel Wilson Bower was born in Clark county, Ind., March 13, 1818. In 1839 he came to Jackson county and settled—“squatted,” in the Hoosier dialect of early times—in the dense woodlands one mile east of Clear Spring, where he cut and hewed out of the thick forest growth an 18-foot square cabin of very primitive construction, and made the opening for the farm, now the “Clint” Bower homestead of 240 acres. About eleven years later he opened another wilderness tract near the present site of Kurtz—the farm of 460 acres now managed by Will H. Bower—erecting thereon a second cabin, still standing, in which several of his children were born. A typical representative of the sturdy, strenuous pioneers, who wrested the Indiana waste of woods and wilds from the Red Men and the no less savage four-footed denizens of the forest, his life has been active, arduous and useful and, in his declining years, still robust and with all his faculties well preserved, he is blessed with plenty and comforted by the loving care of his children.

Only an occasional wanderer from some roving tribe of Indians was seen in this neighborhood after the advent of Father Bower, but wolves and other wild animals were numerous and very aggressive. One incident of the many he delights to tell, happened shortly after he was domiciled in his Clear Spring cabin. Finding it necessary to procure supplies for home, he journeyed to Washington county, leaving his young wife alone with her first born. Shortly after nightfall the cabin was surrounded by a horde of hungry, howling wolves, from which Mrs. Bower protected herself and her babe by keeping a bright fire of light wood during the long and dreary night in the partly completed stick-and-mud chimney that occupied the entire end of the cabin.

In 1850 he took the census of one half of Jackson county, and in 1860 he performed a like duty in three townships, including Owen. In 1851 he assessed Owen township, waiving all over his territory, doing the field work in six days and making up his books in two days more. For this

and making his return to Brownstown, he received \$13. When he first voted at Clear Spring, fifty-three ballots were cast, six Whig and the others Democratic. In the very early days “Uncle Wils.” had a near neighbor and between them they had but one pair of shoes, for Sunday use and festive occasions only, and in the use of these they alternated; necessarily when one went shod the other staid at home. We won't tell here of how once he “went to hunt his cow,” when you meet him you may ask him to repeat the story.

His first market was Louisville and his produce was waggoned to that city. After his first wheat crop was garnered he marketed a wagon load there, bartering it for one barrel of salt.

Among the many relics of olden times which he has carefully preserved is a bundle of old letters. Several of these, written by his father between the years 1846 and 1849 from Jeffersonville and New Washington, telling of the death of his mother and other family affairs, were received at old Woodville postoffice, then kept by the father of Washington Woody, who will be remembered well by our older readers. His father, Joseph Bower, was then recorder for Clark county, holding the office for sixteen years, and for forty years before and later he was a justice of the peace for that county. The letters are very plainly written, without envelopes, sealed with wax, and each has the postage rate—paid either by the sender or the receiver as was the rule then—plainly written in ink on the outside. Others were written from Washington, D. C., by Thomas Jefferson Henley, then representative in the congress from this district.

Of Kurtz, his present home, with its growing business and extensive brick and tile interests, we can make no extended mention here, but we must improve this opportunity to call attention to the fact, that that busy little town, as well as very much of the country lying along a line extending northwesterly from Seymour to Terre Haute, owes in greatest measure its recent wonderful development to the enterprise of John R. Walsh and his Southern Indiana Railway—a line that not only rivals, but is rapidly becoming a leader among all other railway routes in this part of the good and growing State of Indiana. For one ocular proof of this, we direct your attention to the nearest and the best appointed passenger and freight station in South-eastern Indiana, very recently built and equipped by that company in this city. Pardon this digression from our main story, which is yet not all told, but of which you may hear more in a short while from JOHN AULD FORSYTHE.

New Quarters Ready.

There will be no services at the City Mission tomorrow as the congregation have their new house of worship ready for occupancy where services will be held at the usual hours tomorrow. New location on Ewing street between Second and Third streets.

THE BULLET FROM AFAR.

How Modern War Methods Try the Soldiers' Nerves.

Today a man may die as soon as the enemy's guns, hidden away in the distant, cloud topped mountains seven miles away, begin to talk. And over that seven miles he must walk with caution, with a wide interval between him and his pals on either hand. He must lie down at every short halt and scratch the ground hurriedly with his little spade at every long one, for the great shells are sailing toward him, and he sees by his officer's eye and hears by his commands that it is considered that he may perish at any moment and that precautions are necessary to preserve him. He sees, moreover, how futile those precautions must be if one of those monsters howling overhead should land as near to him as the last one did to that blasted tree, for instance, with its scorched, dangling limbs and the huge charred fissure in its stout trunk, or as the one before did to the team of mules in the ambulance wagon, now a screaming, struggling jumble of harness and bloody flesh.

All this is dispiriting and appears unnecessary. The country on all sides is as peaceful as his native dale, not a sign of an enemy. Even the great blue hill ahead, on which he is told the enemy's long guns are posted, looks as quiet as the mountain on a Christmas card. Yet for two miles he walks through death, thinking only of it because there is nothing else to think of, and then as twilight falls bivouacs in extended line, sees his friends run for their tea between the fall of the shells, notices one of them time his run back badly and meet a projectile in full career, to part from it an awful and disgusting offense, and then lies down in the darkness with shaking nerves and the thought that five worse miles still intervene between him and the guns he knows he is intended to take.

Next morning he is awakened by a shell, is marched with infinite caution for two more miles, shelled the whole way, is shelled even in his bivouac by the light of the moon and as he watches the projectiles bursting like water-spouts of fire along his hillside is glad when he is told that tomorrow will be the battle, after which if he wins and if he lives he may be able to walk and sleep in peace for a space.—“A Line-man” in New York World.

FOUR BOYS DROWNED.

Took Too Great Chances In
Muscatatuck Creek.

Near North Vernon, Friday four boys were drowned in Muscatatuck. The creek was very high and attracted many sightseers. Among them were Henry Myers, Eddie Miller, Charley Craig, Fred Schwake and Frank Cassin. The boys got in a canoe that was moored on the bank and started to row up stream. George Banta, a druggist, who was there, called to them not to take the boat out, but they paid no heed. Bystanders saw two of the boys were standing in the boat rowing when it swung around and began to drift toward the dam. Young Cassin saw they were going over the dam, threw off his coat and jumped out just before it went over. He managed to reach the bank. The other boys went over, appeared a few times and were lost to view. One of the boys, Henry Meyers, was an expert swimmer although he had both arms off, and would probably have been saved except for a large dog that was in with them, which would keep striking him in its efforts to get to shore.

Fred Schwake was a brother of Marshal Gustav Schwake. The creek is swollen by the heavy rains and there is small hope of recovering the bodies for a few days. The parents of the dead boys are nearly distracted. This makes six boys drowned at the dam here.

Killing San Jose Scale.

The department of agriculture is preparing to fight the ravages of the San Jose scale throughout the country with its natural enemy, the ladybug, brought from the interior of China. Assistant Botanist Mariot has just returned from the Orient, where he sought the original home of the dreaded scale. For in the interior of the latter country, where European plants had not penetrated, he found the scales and also the ladybug, which kept the scales in subjection and permitted the native plants to flourish.

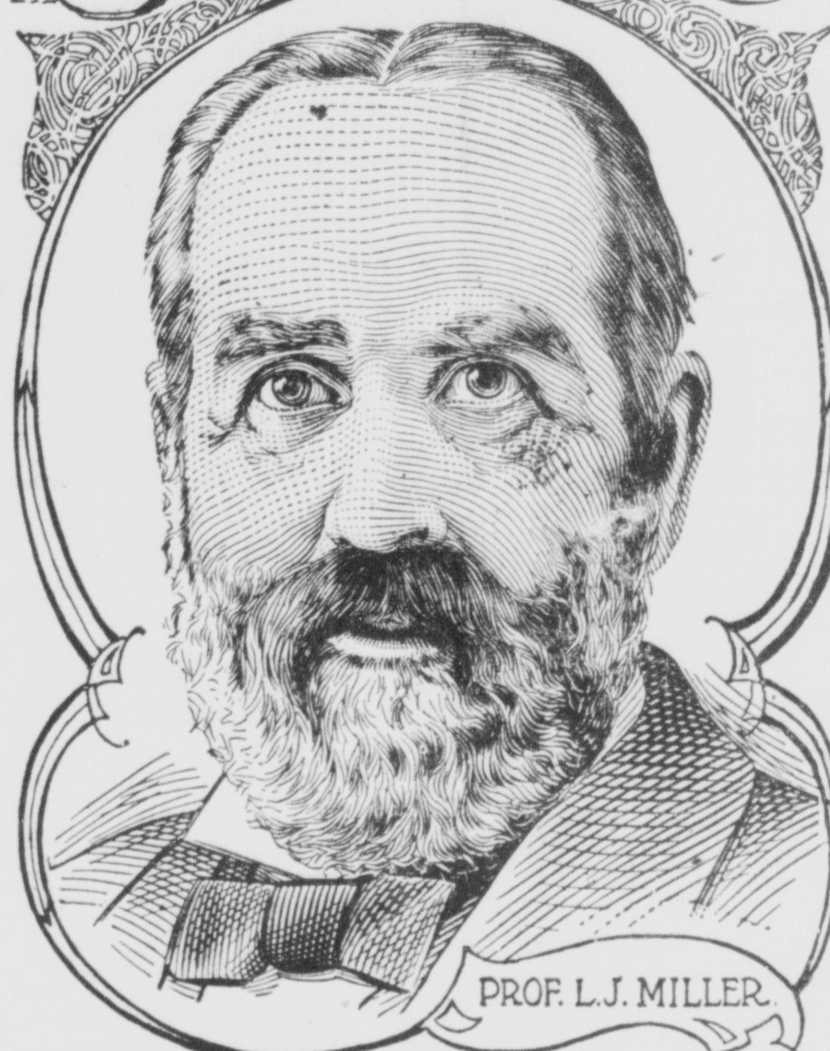

Mr. Mariot started home with a good supply of these ladybugs, and only sixteen survived, and fourteen of these subsequently died. The two remaining, however, were nursed carefully by the department, with a view of fighting the scale in the same manner as in China. There are now fifty of them, requiring the constant gathering of scales from the department grounds for food. While not expecting the scales to be exterminated from this country, experts are planning to attack them with the increasing breed of their natural enemies.

T. R. Browning, of Columbus, who has the contract to put the gravel roof on the new furniture factory, sent a force of men down today to begin work. About ninety squares of the building is ready for the roof.

CHEMICAL ANALYSIS

Reveals That "Pe-ru-na is Calculated to
Tone up the System, Restore the Functions and Procure Health."

SO SAYS PROF. L. J. MILLER, CHEMIST.

PROF. L. J. MILLER.

Prof. L. J. Miller, late Professor of Chemistry and Botany of the High School of Ypsilanti, Mich., writes from 327 N. Clark Street, Chicago, Ill., as follows:

"As several of my friends have spoken to me of the favorable results obtained through the use of Peruna, especially in cases of catarrh, I examined it most thoroughly to learn its contents.

"I found it composed of extracts of herbs and barks of most valuable medicinal qualities combined with other ingredients, delicately balanced, calculated to tone up the system, restore the functions and procure health.

"I consider Peruna one of the most skillfully and scientifically prepared medicines, which the public can use with safety and success."—PROF. L. J. MILLER

Class Meeting.

WINE OF CARDUI
is a thoroughly scientific and modern remedy, meeting the needs of the modern woman in the modern way—without the torture of an operation. Wine of Cardui has cured them in the privacy of their homes and it has found a place in the hearts of American women that no other medicine has found. In period. I have taken great interest in this medicine for the past two years, since it brought health and strength to me. I have also recommended it to a number of my friends and they have used it with the same results. It simply drives pain and disease away and restores health in an incredibly short time. VERY MUCH WANTED.
The Last Few Years has Shown A Remarkable Increase of Sleeplessness how to Overcome it.

Sleeplessness is one of the most prolific sources producing weak, nervous and a restless condition. There is no sense in using opiates, they only undermine the constitution. Nothing has ever been known to perfectly control this condition, until the advent of Dr. A. W. Chase's Nerve Pills, their action is so gentle and soothing that sleep follows, then nature has a chance to build up.

Mrs. F. K. Mackey of 614 poplar St., South Seymour, Ind., says: "I was a sufferer from severe nervousness, sleeplessness and dizziness. I was advised to try Dr. A. W. Chase's Nerve Pills. I got a box at A. J. Pellen's Drug Store and now after using the medicine I am pleased to say my nervous system has been toned up, I sleep well and am relieved of those dizzy spells. I consider these pills a splendid nerve medicine."

Dr. A. W. Chase's Nerve Pills are sold at 50 c. a box at leading dr. or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature A. W. Chase, M. D. are on every package.

WALL PAPER

—Real violets, roses, lilies-of-the-valley—almost any blossoms—and they won't be bit prettier than the wall paper we have. Besides it would cost more, and be lots of trouble. We will put any paper you select on any room in your house and we will make no fuss or bother. Papering has come to be such a science nowadays, and paper is so cheap, that people don't wait until spring to change the paper on their walls. Whenever they get tired of it, or it is the least soiled.

We're at your disposal at anytime, go anywhere, and do all kinds of work from the cheapest to the finest.

AN ANECDOTE OF WHITMAN.
How the Poet Was Trying to Cheer Up a Friendless Boy.

One day I was stopped on Washington street, says J. T. Trowbridge in The Atlantic, by a friend who made this startling announcement: "Wait! Whitman is in town. I have just seen him!" When I asked where, he replied: "At the stereotypy foundry, just around the corner. Come along, I'll take you to him." The author of "Leaves of Grass" had loomed so large in my imagination as to seem almost superhuman, and I was filled with some such feeling of wonder and astonishment as if I had been invited to meet Socrates or King Solomon.

We found a large, gray haired and gray bearded, plainly dressed man, reading proof sheets at a desk in a little dingy office, with a lank, unwholesome looking lad at his elbow listlessly watching him. The man was Whitman, and the proofs were those of his new edition. There was a scarcity of chairs, and Whitman, rising to receive us, offered me his, but we all remained standing except the sickly looking lad, who kept his seat until Whitman turned to him and said: "You'd better go now. I'll see you this evening." After he had gone out Whitman explained: "He is a friendless boy I found at my boarding place. I am trying to cheer him up and strengthen him with my magnetism," a practical but curiously prosaic illustration of these powerful lines in the early poems:

To any one dying thither I speed and twist the knob of the door.
I seize the descending man; I raise him with resistless will.
Every room of the house do I fill with an armed force, lovers of one, buffers of graves.

FOUR BOYS DROWNED
Foolhardy Attempt to Shoot a Dam In Rushing Waters Ends In a Sad Disaster.

Mount Vernon In Mourning For the Sudden Death of Well Known Lads.

North Vernon, Ind., May 24.—Edward Miller, Charles Craig, Harry Meyers and Fred Schwake, sons of prominent citizens, were caught by the strong current of the Muscatatuck river yesterday while boating and hurled over the waterworks dam that spans the river, into the whirling waters below. All four were drowned.

In company with Frank Cassan the boys embarked in a skiff upon the swollen, angry waters of Muscatatuck creek, above a stone dam built across the stream to retain water for city purposes. In a spirit of adventure the boys let the boat drift over the dam and all were drowned except Cassan. The boys ranged in age from 14 to 20 years. They were highly respected in the community and there is much mourning for their untimely end.

Shocking Double Tragedy.
South Bend, Ind., May 24.—John W. Churry, aged 31, a carpenter, shot and killed his sweetheart, Susanne Keskemeti, aged 16, here yesterday and then killed himself with the same revolver. The couple evidently had planned to die together. They apparently had lain on the ground side by side. He then evidently placed the 38-caliber revolver over her heart and fired twice. Both bullets, not an inch apart, passed through her body and buried themselves in the ground. He then shot himself in the mouth. His right hand, still clutching the weapon, lay across his breast. There was no indication of a struggle and no reason for the tragedy is known.

Shortage Is Claimed.
Brazil, Ind., May 24.—Charles S. Evans, the superintendent of the city water-works, is missing. He left about 10 days ago, presumably to go to St. Louis, but he is not there, and his whereabouts are not known. His family claims to know nothing of him. The books of the water plant are being investigated, and it is believed they will show a shortage of about \$2,000.

A Fortunate Shower.
Kendallville, Ind., May 24.—Mrs. Laymiller, 65 years old, who has lived alone on a small farm north of here, was nearly burned to death. She had been burning rubbish when her clothing caught fire and she would have lost her life had not a shower of rain put out the flames. Two hours later a neighbor heard her cries for help. She may not recover.

Village's Serious Loss.
Goshen, Ind., May 24.—The town of Milford had a disastrous fire which burned out many business firms. The total loss was \$30,000, with about \$20,000 insurance. The flames swept an entire block of business houses on the east side of Main street. The town had no fire protection, and the people turned out in force, but the fire was beyond control.

Thieves Are Busy.
Versailles, Ind., May 24.—Thieves have been busy in the surrounding country during the last few weeks. A number of homes have been robbed of money and jewelry, and the authorities have been unable to make any arrests.

Shot By Accident.
Alexandria, Ind., May 24.—Antonio Meyers Jr., a glassworker at Orestes, was shot while in the factory there, by George Ham. The ball lodged in his side and was removed, but Meyers is seriously hurt. Ham claims the shooting was accidental.

Perilous Position.
South Whitley, Ind., May 24.—Res Kite, a farmer, was thrown from his wagon during a runaway, when his foot caught and he was dragged a quarter of a mile before the team stopped.

Cattle Killed By Lightning.
Dresser, Ind., May 24.—During a storm north of here 28 head of cattle on the farm of John Strain were killed by lightning. The loss was \$1,960.

WOMAN'S POWER

Perfection of Form, Feature, and Mind Render Women All-Powerful. Health, However, the Greatest Charm.

Woman's greatest gift is the power to inspire admiration, respect, and love. There is a beauty in health which is more attractive to men than mere regularity of features.

The snap and spirit which health gives to the eye, the movement, and the speech are full of magnetism. Sickly women can't understand this. They only know that they are miserable, and their efforts to be attractive are languid and weak.

Woman's influence in the world is limited by her strength, and the strength of health is real strength. It brings with it beauty and grace and loveliness of disposition. To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study. It should be all she may, she must guard well against the signs of ill health.

Regular and painless menstruation is absolutely necessary. The help which Lydia E. Pinkham's Vegetable Compound gives to women who are attacked by any disorder of the feminine organism is real, permanent help. It cures all weaknesses of the organs and makes it possible for women to retain their health and beauty to maturity.

Mrs. Pinkham advises women who are ill free of cost. Address her at Lynn, Mass. Thousands owe their health to her.

A Boston Woman's Experience.
"DEAR MRS. PINKHAM:—I feel very grateful to you for the benefit I derived from your kind advice and remedies. I was troubled with a complication of female troubles, had ovaritis, painful and irregular menstruation, leucorrhoea, nervousness and weakness. I had no appetite and could not sleep nights. The least exertion would cause shortness of breath and dull pains in my hips and side. The doctors all advised me to have an operation and have one of my ovaries removed, but this I could not bear to think of. I was induced to try Lydia E. Pinkham's Vegetable Compound, and after taking the first bottle I was much improved. It renewed my appetite, health and strength. I continued taking it, also your Blood Purifier and Sanative Wash until entirely cured of all my troubles. The pains have never returned and my health is splendid. Your remedies have been a boon to me and I am sure many a woman owes her life to them."—MARIE WEBB, 355 Columbus Ave., Boston, Mass. (March 15, 1901.)

No other medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles or such hosts of grateful friends. Remember this when you go to buy Lydia E. Pinkham's Vegetable Compound.

BROUGHT TO LIGHT.
Seymour People Receiving the Full Benefit.

There have been many cases like the following in Seymour every one relates the experience of people we know. These plain straight-forward statements will do much toward relieving the suffering of thousands. Such testimony will be read with interest by many people.

Mrs. Jane Combs of Cincinnati ave., says: I procured Doan's Kidney Pills from C. W. Milbourn's drug store. Two members of my family suffered greatly from their back and kidneys and I insisted on their taking a course of the treatment. They did so and were soon benefitted. I also used the remedy myself with good result. Doan's Kidney Pills strengthen the kidneys, remove backache, and banish the annoyance arising from difficulty with the kidney secretion. I recommend them heartily to others in need of a reliable kidney remedy."

For sale by all dealers, price 50 cts. Foster-Milburn Co., Buffalo, N. Y. sole agents for the U. S. Remember the Doan's and take no other.
